

## GX/GXC Block I/O

## GX Series IP67 Compact Modules B

■ Features

- Protection degree upto IP67- ensures most successful application on-site
- Fully sealed design- gives excellent vibration resistance feature
- Smart and compact housing- makes installation much more easier

EtherNet/IP®

EtherCAT®

DeviceNet

■ Communication

- Support for multiple open bus protocol
- IP67 connector design, safety and reliability
- High integration communication kernel, high-speed & stability

CC-Link IE

DI

DO

■ Signal

- Support various kinds of signals
- Various signal combination function, suitable for complex signal transmission requirements
- Configurable modules for Input/Output

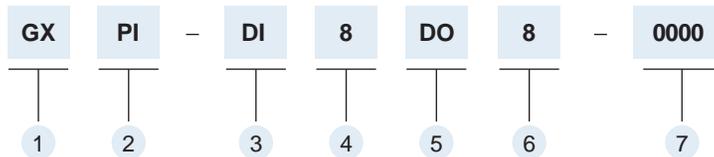

DIO

■ Connection

- Perfect connectors product line ensures
- Pre-moulding - T type - Field wirable connectors
- Various kinds of connectors, fully satisfy your different requirement

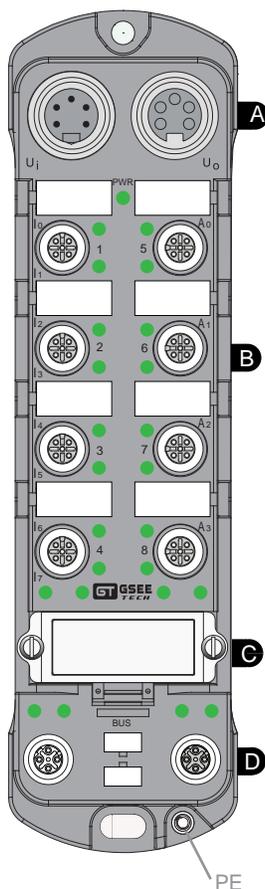

GX series modules type codes

GX series module structure

**A** The power interface

- Each module has two 7/8" power supply interface male and female
- Each power supply interface including the system power supply and load power supply
- Pre-moulding/Field wirable connectors

**B** The I/O interface

- Each module has 8 hole M12 A code I/O interface
- Each M12 interface includes power supply and signal channel
- Pre-moulding/Field wirable connectors

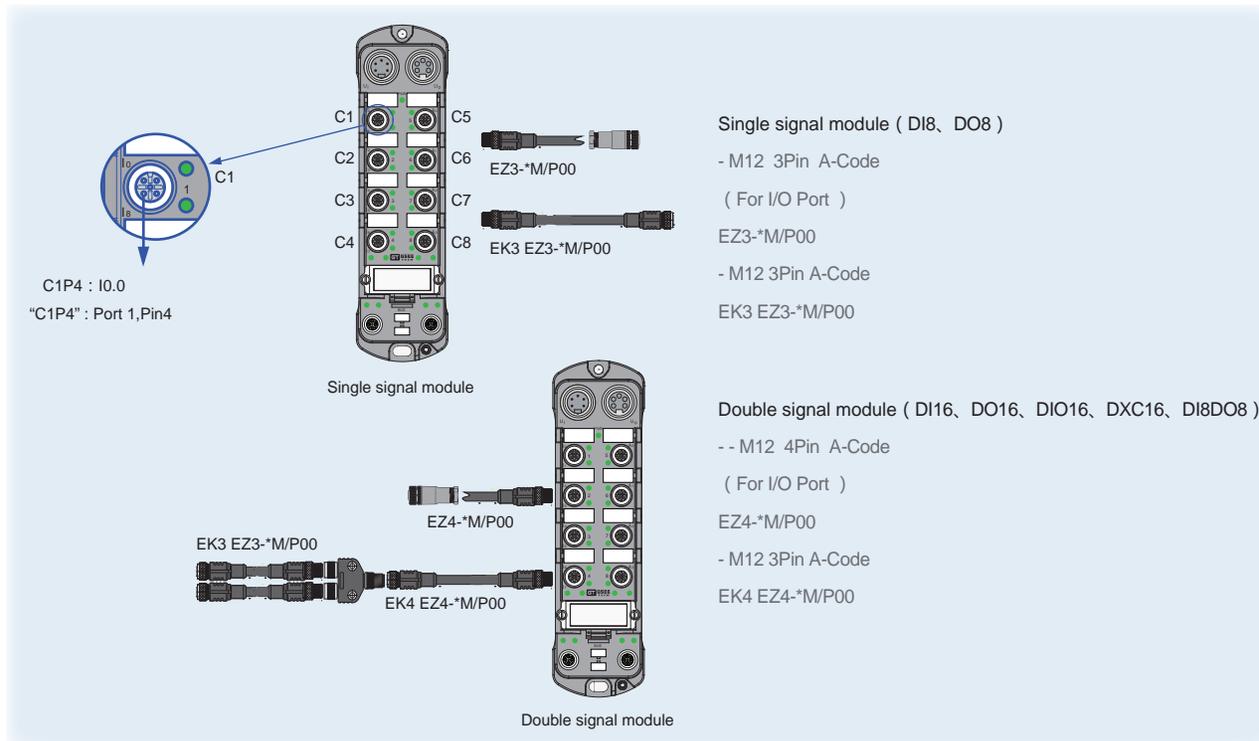

**C** Station address dial switch

- Set the Modules address

**D** The bus interface

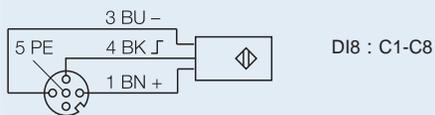

- Ethernet modules, each module has 2 M12 D code bus interface (2 male)
- PROFIBUS-DP, each module has 2 M12 B code bus interface (1 male, 1 female)
- DeviceNET, each module has 2 M12 A code bus interface (1 male, 1 female)
- Pre-moulding/Field wirable connectors

- PROFINET Slave module
- Support MRP
- Support FSU
- Integrated Ethernet switch function
- Short-circuit\overload\reverse polarity protection
- IP67 Protection degree

### Digital input module

Ordering data	GXPI-DI8-1000	GXPI-DI16-1000	GXPI-DI8	GXPI-DI16
Number of input	8	16	8	16
Connection	M12, A-coded			
Input				
Input signal	3-wire sensors ,npn , or mes. switches		3-wire sensors ,pnp , or mes. switches	
Input voltage	0VDC		18...30 VDC	
Supply current	<200 mA, Short circuit protection			
Switching threshold	IEC 61131-2			
Input delay	2.5 ms			
Switching frequency	≤ 250 Hz			
Max.input current	6 mA			

\* I/O wiring diagram and address distribution refer to B04

### Digital output module

Ordering data	GXPI-DO8	GXPI-DO16	GXPI-DO8-0100
Number of output	8	16	8
Connection	M12, A-coded		
Output			
Output voltage	18...30 VDC		
Output current /channel	0.5 A, Short circuit protection		2 A, Short circuit protection
Load type	resistive, inductive, lamp load		
Simultaneity factor	1		
Switching frequency	≤ 250 Hz		
Max. output current	0.7A/ch		2A/ch
Electrical isolation	galvanic isolation against the bus		

\* I/O wiring diagram and address distribution refer to B04

### Digital input and output combined module

Ordering data	GXPI-DI8DO8	GXPI-DIO16	GXPI-DXC16	GXPI-DI8DO8-0100
Number of input	8	16	16	8
Number of output	8	16	16	8
Connection	M12, A-coded			
Input				
Input signal	3-wire sensors ,pnp , or mes. switches			
Input voltage	18...30 VDC			
Supply current	<200 mA, Short circuit protection			
Switching threshold	IEC 61131-2			
Input delay	2.5 ms			
Switching frequency	≤ 250 Hz			
Max.input current	6 mA			
Output				
Output voltage	18...30 VDC			
Output current /channel	0.5 A, Short circuit protection		2A,Short circuit protection	
Load type	resistive, inductive, lamp load			
Simultaneity factor	1			
Switching frequency	≤ 250 Hz			
Max. output current	0.7A/ch		2A/ch	
Electrical isolation	galvanic isolation against the bus			

\* I/O wiring diagram and address distribution refer to B04(DIO16 system power GND and load power GND are not insulation, DXC16 system power GND and load power GND are completely insulation (c1-c4 from UB, c5-c8 from UL))

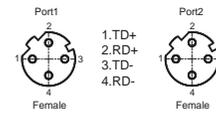

Basic Data

PROFINET Interface	
Protocol	PROFINET IO
Connection	7/8"; 5-Pin; U <sub>B</sub> Max.9A, U <sub>L</sub> Max.9A
Supply voltage	24VDC (18...30VDC)
Operating current	< 150 mA
Physical layer	Ethernet
Transmission rate	10/100 Mbps,full duplex
Connection	2 x M12 (D-Code) , 4PIN ,female, Integrated switch function
Characteristic	IRT、MRP、LLDP/DCP、PTCP
Alarm function	Diagnose alarm, process alarm, insert connector alarm
Minimum cycle time	250 μs
FSU	< 500ms
LED-indication	
PWR	Green: OK Red: U <sub>L</sub> load power failure
MS	Green: Module OK Red: Major fault (Exception-state, Fatal error)
NS	Green: Online (RUN) Green, flashing: Online (STOP) Red: Internal error Red,flashing: Station name/ IP address/ Configuration error
LINK	Green: Ethernet link established,communication present Green, flashing: Ethernet link established,no communication present OFF: NO link, no communication present
I/O	Green: Input or output active Red: Fault

U<sub>B</sub>: System Power, U<sub>L</sub>: Load Power  
7/8" Power supply

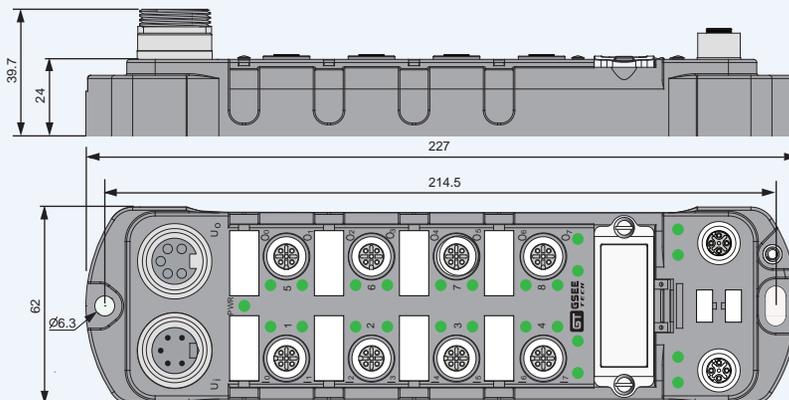

PROFINET PORT1/2

General Data

Protection degree	IP67
Operating temperature	-30 ~ 70°C
Storage temperature	-40 ~ 85°C
Relative humidity	5 ~95% without condensation
Application environment	Acc.to EN-61131
Housing material	Glass fiber enhanced nylon(PA6)
Housing colour	Black
Vibration test	IEC60068-2-6
Impact test	IEC60068-2-27
Free fall test	IEC60068-2-32
EMC	IEC61000-4-2, -3, -4
Certification	CE
Installation	installation wall mount
Installation hole specification	2↑Φ6.3mm
Weight	515g
Dimensions (LxWxH)	227mm x 62mm x 24mm

- EtherNET/IP Slave module
- Support DLR
- Support QC
- Integrated Ethernet switch function
- Short-circuit\overload\reverse polarity protection
- IP67 Protection degree

# GX/GXC IP67 Extension Modules C

### System overview

GSEE-TECH launched GXC/GX series IP67 protection degree extension field bus system, as an innovative field bus system, this product is more concentrated than traditional. The control mode has higher flexibility. It consists of coupler and expansion module, and coupler support PROFINET, ETHERNET/IP, MODBUS TCP, PROFIBUS-DP, DEVICENET and other protocol, the expansion module supports digital, analog, thermal resistance, thermocouple and other signal types. High Performance, modular design, compact structure, durable, high protection level, suitable for a variety of applications.

GX

### System Characteristics

- One branch, can connect more I/O modules, up to 32
- The extended distance between modules is 10 meters
- Communication and power isolation
- On line diagnosis of modules and channels
- LED display module and channel state
- Channel protection

PROFI  
NET

Modbus

EtherNet/IP

### System Composition

- Coupler: support multiple bus protocol
- Expansion module: support digital input and output, analog input and output
- Subnet expansion cable: connection between coupler and extension module, expansion module and expansion module
- Sub network power cable: power supply for expansion module System advantage

GX

### Applicable Industry

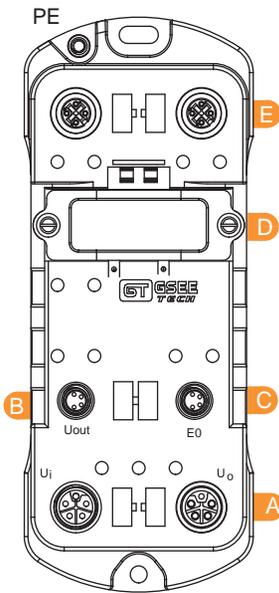

- Automobile industry
- Metallurgical Industry
- Logistics industry
- Machine tool industry
- New energy industry
- Packaging machinery industry
- Food and beverage industry
- Other automation applications

DeviceNet

PROFI<sup>®</sup>  
BUS

### System advantage

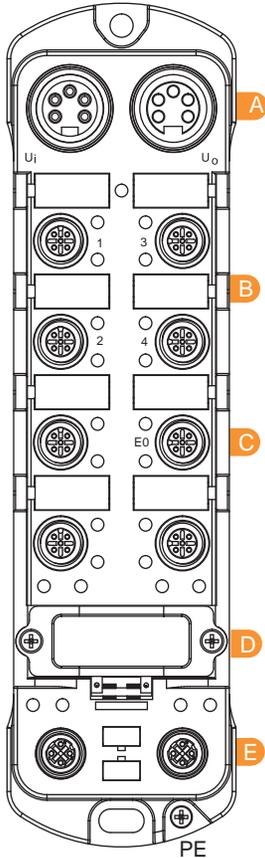

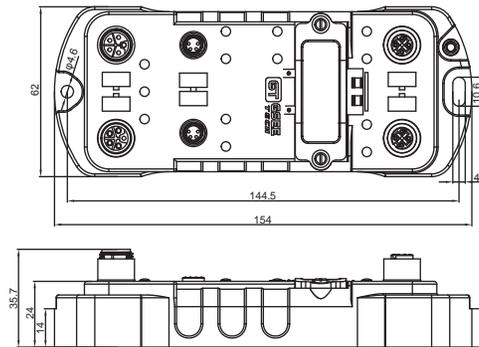

- IP67 high protection degree is suitable for various environments
- Compact design, small size, save space
- More flexible and easy to expand
- Simplify the routing of sensors and actuators
- Reduce the cost of cable
- Save the space in the machine or the control cabinet

- PROFINET Coupler
- Support 1 extension branch
- Extension Modules : Max.32
- Support MRP,Integrated Ethernet switch function
- IP67 Protection degree

## Basic Data

Communication port	
Protocol	PROFINET
Connection	2 x M12,4PIN,Female,D-code, Integrate switch function
Physical layer	Ethernet
Transmission speed	10/100Mbps,Full duplex
Features	IRT, MRP, DCP
Alarm function	Acc. to PROFINET alarm handling
Min. period time	250μsec.
IRT bridge delay	<3μsec.

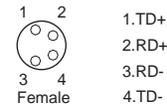

Power port	
Power Connection	2xM12,L-code 5-pin ,Male/Female, Max.16A
Uout Connection	1xM8,4-pin female, Uout4A , 24 VDC
Supply voltage	18...30VDC
Operating current	<150mA

Extension port(E0)	
Extension protocol	EtherCAT
Connection	1 x M8 4-pin female
Branch structure	1 x Extension branch
Numbers of extension	Max. 32 Modules
Extension distance	Max.10M (between two modules)

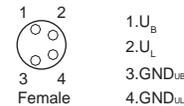

LED-indication	
PWR	Green: system power is ok
UB	Green: Uout port,system power is ok
UL	Green: Uout port,load power is ok
MS	Green: module OK, red: module Fault
NS	Green:Online (RUN); Green, flashing:Online (STOP) Red:Internal error Red,flashing:Station name/ IP address/ Configuration error
LINK	Green:Ethernet link established,communication present Green, flashing: Ethernet link established,no communication present OFF:NO link, no communication present
ES	Green: extension module is ok; Red: extended module fault
E0	Green:Physical connection OK; Green,flashing: extension communication OK

Order information	
Type	GXCPI-EC
Protocol	PROFINET Coupler
Description	IP67 Protection degree, Operating temperature:-30~70°C Dimension:154(H)x62(W)x35.7(D)mm

Dimension:

- DEVICENET Coupler
- Support 1 extension branch
- Extension Modules : Max.32
- Transmission Technology: CAN
- IP67 Protection degree

DeviceNet

## Basic Data

Communication port	
Protocol	DeviceNET
Connection	2 x M12, 5PIN , Male/female , A-code
Physical layer	CAN
Transmission rate	125/250/500 kbps
Communication distance	Max.500m
Address range	0 ... 63
Address setting	Rotating switch

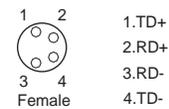

Power port	
Power Connection	2xM12,L-code 5-pin ,Male/Female, Max.16A
Uout Connection	1xM8,4-pin female, Uout4A, 24 VDC
Supply voltage	18...30VDC
Operating current	<150mA

Extension port(E0)	
Extension protocol	EtherCAT
Connection	1 x M8 4-pin female
Branch structure	1 x Extension branch
Numbers of extension	Max. 32 Modules
Extension distance	Max.10M (between two modules)

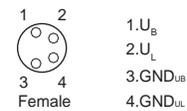

LED-indication	
PWR	Green: system power is ok
UB	Green: Uout port,system power is ok
UL	Green: Uout port,load power is ok
NS	Green: Online,one or more connections established Green, flashing : Online, no connections established Red: Network failure Red, flashing : One or more connections timed-out Alternating Red/Green : self-inspection
MS	Green:OK ; Green, flashing : Configuration error Red : Module failure (unrecoverable) Red, flashing : Module failure (recoverable) Alternating Red/Green : self-inspection
ES	Green: extension module is ok; Red: extended module fault
E0	Green:Physical connection OK; Green,flashing: extension communication OK

Order information

Dimension:

- PROFINET Coupler
- Support 1 extension branch
- Extension Modules : Max.32
- 8 configurable Digital Input/output channels
- Support MRP,Integrated Ethernet switch function
- IP67 Protection degree

Basic Data

Communication port	
Protocol	PROFINET
Connection	2 x M12,4PIN,Female,D-code, Integrate switch function
Physical layer	Ethernet
Transmission speed	10/100Mbps,Full duplex
Features	IRT, MRP, DCP
Alarm function	Acc. to PROFINET alarm handling
Min. period time	250μsec.
IRT bridge delay	<3μsec.

Power port	
Power supply	2 x 7/8", 5PIN,Male/Female, U <sub>B</sub> MAX 9A, U <sub>L</sub> MAX 9A
Supply voltage	24VDC ( 18...30VDC )
Operating current	<150mA

Extension port(E0)	
Extension protocol	EtherCAT
Connection	1 x M12 4PIN,Female , D-code
Branch structure	1 x Extension branch
Numbers of extension	Max. 32 Modules
Extension distance	Max.10M (between two modules)

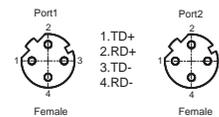

I/O channels	
Input/output channels	8 configurable Digital Input/output channels
Connection	4 x M12,5PIN,Female, A-code
Input signal	3-wire sensors ,npn , or mes. switches 18...30 VDC <200 mA, Short circuit protection
Output signal	Output voltage:18...30 VDC Output current : 0.5 A/ch , Short circuit protection

LED-indication	
PWR	Green: OK; Red: UL load power failure
MS	Green : Module OK; Red : Major fault (Exception-state , Fatal error )
NS	Green : Online (RUN) Green, flashing : Online (STOP) Red : Internal error Red,flashing : Station name/ IP address/ Configuration error
LINK	Green : Ethernet link established,communication present Green, flashing: Ethernet link established,no communication present OFF : NO link, no communication present
I/O	Green : Input or output active; Red : Fault
E0	Green : Ethernet link established ; Green flashing: Extension port communication OK

# GX Ethernet/IP Coupler

- EtherNet/IP Coupler
- Support 1 extension branch
- Extension Modules : Max.32
- 8 configurable Digital Input/output channels
- Support DLR,Integrated Ethernet switch function
- IP67 Protection degree

EtherNet/IP

## Basic Data

Communication port	
Protocol	EtherNET/IP
Connection	2 x M12,4PIN,Female,D-code, Integrate switch function
Physical layer	Ethernet
Transmission speed	10/100Mbps, Full Duplex
Protocol transmission	CIP Class 1 or 3
IP Address/DHCP	Through software Settings or rotating switch

Power port	
Power supply	2 x 7/8", 5PIN,Male/Female, U <sub>b</sub> MAX 9A, U <sub>L</sub> MAX 9A
Supply voltage	24VDC ( 18...30VDC )
Operating current	<150mA

Extension port(E0)	
Extension protocol	EtherCAT
Connection	1 x M12 4PIN,Female , D-code
Branch structure	1 x Extension branch
Numbers of extension	Max. 32 Modules
Extension distance	Max.10M (between two modules)

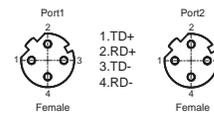

I/O channels	
Input/output channels	8 configurable Digital Input/output channels
Connection	4 x M12,5PIN,Female, A-code
Input signal	3-wire sensors ,npn , or mes. switches 18...30 VDC <200 mA, Short circuit protection
Output signal	Output voltage:18...30 VDC Output current : 0.5 A/ch , Short circuit protection

LED-indication	
PWR	Green: OK ;Red: UL load power failure
MS	Green, flashing: Not configured, or Scanner in Idle state Red: Major fault (EXCEPTION-state, FATAL error etc.) Red, flashing: stored parameters differ from currently used parameters
NS	Green: Online, one or more connections established (CIP Class 1 or 3) Green, flashing: Online, no connections established Red: Duplicate IP address, FATAL error Red, flashing: One or more connections timed out (CIP Class 1 or 3)
LINK	Green/Yellow : Link (100 Mbit/s) /Link (10 Mbit/s) established Green/Yellow,flashing : Activity (100 Mbit/s)/(10 Mbit/s) OFF : No link, no activity
I/O	Green : Input or output active; Red : Fault
E0	Green:Ethernet link established ; Green flashing: Extension communication OK

Order information

## Module information

**EtherCAT** 

Extension module  
8 channel Digital  
input and output  
(self-adaption)  
( EtherCat Module)

GXEC-DIO8S 4 x M12

8 channel Digital input and output (self-adaption)(pnp, 0.5A)

## Connection

EtherCat port	2 x M8 , 4PIN,Female
Power port	1 x M8 , 4PIN,Male; 1 x M8 , 4PIN,Female
I/O port	4 x M12, 5PIN,Female,A-Code

## Input parameter

Number of input	8channels
Input signal	PNP , or mes. switches
Input voltage	18-30 VDC
Operating current	<200 mA, Short circuit protection
Switching threshold	IEC 61131-2
Input delay	25 μs
Switching frequency	≤250Hz

## Output parameter

Number of output	8 channels
Output voltage	18-30 VDC,PNP
Output current /ch	0.5 A, Short circuit protection
Load type	resistive, inductive, lamp load
Simultaneity factor	1
Switching frequency	≤ 250 Hz
Max. output current	0.7A/ch

## Module LED- indicator

PWR	Green: Power OK, Red: Power Fault
LINK	Green: Physical connection OK; Green flash: EtherCat extension communication OK
RUN	Green :Operational status;Off :Non-working status
I/O Port	Green: I/O OK, Red: I/O Fault

## Basic Data

Rated voltage	18-30VDC
Power dissipation	Max.80mA
Protection degree	IP67
Operating temperature	-30°C~70°C
Storage temperature	-40°C~85°C

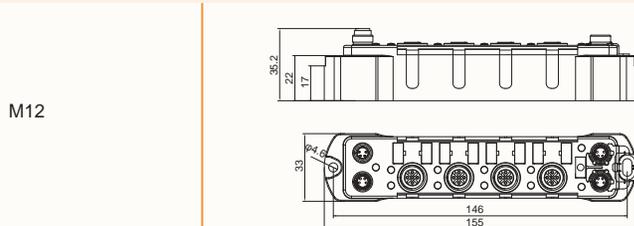

## Pin Definition

Extension port & power port pin definition	EtherCAT extension port - 2 x M8				Power port- 2 x M8

## Mechanical dimensions

## Digital input and output extension module

### Module information

EtherCAT

Extension module  
8 channel Digital  
input and output  
(self-adaption)  
( EtherCat Module)

GXEC-DIO8S-N 4 x M12

8 channel Digital input and output (self-adaption)(npn, 0.5A)

### Connection

EtherCat port	2 x M8 , 4PIN,Female
Power port	1 x M8 , 4PIN, Male; 1 x M8 , 4PIN,Female
I/O port	4 x M12, 5PIN,Female,A-Code

Input parameter		Output parameter	
Number of input	8channels	Number of output	8 channels
Input signal	NPN , or mes. switches	Output voltage	0 VDC,NPN
Input voltage	0 VDC	Output current /ch	0.5 A, Short circuit protection
Operating current	<200 mA, Short circuit protection	Load type	resistive, inductive, lamp load
Switching threshold	IEC 61131-2	Simultaneity factor	1
Input delay	25 μs	Switching frequency	≤ 250 Hz
Switching frequency	≤250Hz	Max. output current	0.7A/ch

### Module LED- indicator

PWR	Green: Power OK, Red: Power Fault
LINK	Green: Physical connection OK; Green flash: EtherCat extension communication OK
RUN	Green :Operational status;Off :Non-working status
I/O Port	Green: I/O OK, Red: I/O Fault

### Basic Data

Rated voltage	18-30VDC
Power dissipation	Max.80mA
Protection degree	IP67
Operating temperature	-30°C~70°C
Storage temperature	-40°C~85°C

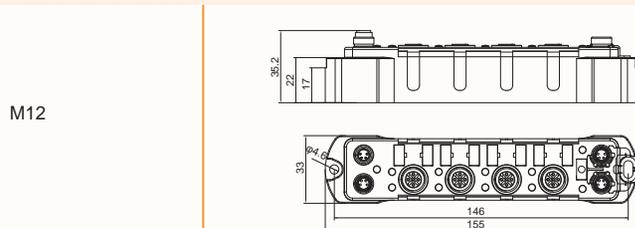

### Pin Definition
